

KiLiKi Fonts

Installation Guide v1.2

KiLiKi Fonts are true type fonts designed for you to use in your desktops and laptops. You can download the fonts from kiliki.in > tools > download fonts

Once the .ttf fonts are downloaded follow the instructions to install them...

Windows 10

1. Open the Windows Control Panel
2. Select Appearance and Personalization
3. Select Fonts... in the bottom
4. To add a font, simply drag the font file into the font window
5. Click Yes when prompted

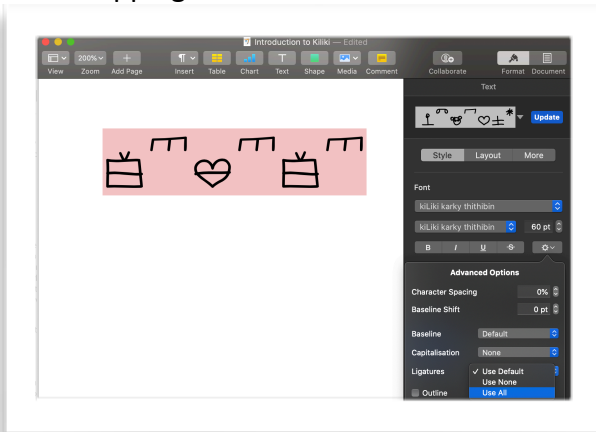

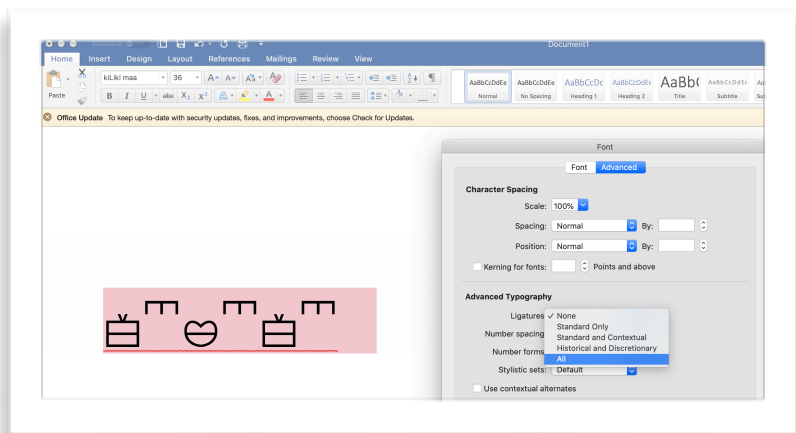

Mac OS

1. Right click the font and open with > Font Book
2. Click Install Font

Once the fonts are installed open your word processing application such as Word or Pages.

Microsoft Word

1. Select the font 'KiLiKi Maa' or 'KiLiKi Thithibin' from the fonts dropdown box.
2. Type 'kiLiKi' if you see kiLiKi then the ligatures need to be set.
3. Select the word kiLiKi and go to menu > Format > Fonts > Advanced Tab > Ligatures > and select 'All' and click OK.
4. The word will now look like kiLki.
5. Enjoy typing in KiLiKi. Follow the keyboard mapping.

Apple Pages

1. Select the font 'KiLiKi Maa' or 'KiLiKi Thithibin' in the font dropdown box
2. Type 'kiLiKi' if you see kiliki then the ligatures need to be set.
3. Select the word kiliki and go to Format Window > Font Section > Settings > Ligatures > and select 'Use All'
4. The word will now look like kiliki.
5. Enjoy typing in KiLiKi. Follow the keyboard mapping.
